

RUBIOUS EYES

I see you – reptile with human face
I hear you – another thoughtless try
Shut your fucking maw!
Get away from my life!
When I see you – the bastard
So stupid brainless subhuman!
My adrenaline screams
My emotions burn!

On other day,
You tried to speak to me,
But keep your fucking words
For your stupid mother and let me be!
No more will, patience's gone
I feel it again so strong
All the love has turned to anger
To rage in both my fists!

Emotions burn!

All I want to say
The clear message for you
Just see my fists
See my restless eyes

On other day,
You tried to speak to me,
But keep your fucking words
For your stupid mother and let me be!
No more will, patience's gone
I feel it again so strong
All the love has turned to anger
To rage in both my fists!

I see you – reptile with human face
I hear you – another thoughtless try
Shut your fucking maw!
Get away from my life!
When I see you – the bastard

ATTACK OF WOLVES

When you are lonely, faint
When dark thoughts absorb you
When you see no future
So vulnerable you are

Your despair lures, wolves living around
Those ordinary people one would say
Senseless herd of greedy creatures
Thirsty for your hot blood and soul

Don't give them chance
Destroy the pack
Resist, stand up wounds
Fight them back
Break faint thoughts
Scream, kick and crash
Fight hard and
Wake up yourself

Failure means an end, the hunt circles away
Waiting for your mistake

Then the pack hits to win its glory
Show no mercy, get ready for fight

You feel how horror creeps in
Senseless herd of greedy creatures

Failure means an end, the hunt circles away
Thirsty for your hot blood and soul

Don't give them chance
Destroy the pack
Resist, stand up wounds
Fight them back
Break faint thoughts
Scream, kick and crash
Fight hard and
Wake up yourself

Don't give them chance
Destroy the pack
Resist, stand up wounds
Fight them back
Break faint thoughts
Scream, kick and crash
Fight hard and
Wake up yourself

CHROMOSOMES

Hey brother, please, calm down
Yes, it all went fucking wrong
Shining medical steel, silver wires
Catching life in neurones,
Please keep trying, don't fade away
Fly with a passion
Into your dying ambition
Till turn off your mind

It's too hard to believe
To believe in pretending
„The loser“ is not your name
I'm the peace of you
You are genuine part of my way
„*Betrayer*“ is not my name

Overcoming pains together
Laying on the ground
Frozen without motion
It's time to start our last war
Crusade against you, with you
Our common chromosomes
Yours against mine – a joke?
Feelings so strange

It's too hard to believe
To believe in pretending
„The loser“ is not your name
I'm the peace of you
You are genuine part of my way
„*Betrayer*“ is not my name

Hey brother, please, calm down!
Yes, all it's been truly right!

It's too hard to believe
To believe in pretending
„The loser“ is not your name
I'm the peace of you
You are genuine part of my way
„*Betrayer*“ is not my name

It's too hard to believe
To believe in pretending
„The loser“ is not your name
I'm the peace of you
You are genuine part of my way
„*Betrayer*“ is not my name

SPEAK WITH ME

I can hear voices coming from miles away
Screaming inside my brain, tearing my head
Between hollow walls too much empty words
But I'm just a man – questions without answer

Child inside
Blind devotion
Speak with me!
Speak with my child inside
Give me water
I can drink
Speak with me!
Cause I have done all I could

Nice golden disc – such unavailing tunes inside
Sounds of suppressed emotion
Everybody says I'm kind of strange
Feel the body heat within
Bleeding of unleashed hearts
Only shout: „Shut your mouth!“
„Shut your fucking mouth!“

Child inside
Blind devotion
Speak with me!
Speak with my child inside
Give me water
I can drink
Speak with me!
Cause I have done all I could

I'm sure you don't let me down
Human company is light
Under your commands, my friend
Set direction, I will march

Child inside
Blind devotion
Speak with me!
Speak with my child inside
Give me water
I can drink
Speak with me!
Cause I have done all I could

Just speak with me!

DROWSING TO EXPECTATION

In between two worlds
When night overrules the day
Something between words
In time of evening pray
Listen to voices behind
Firewall of consciousness
See shadow features
In closing circle of darkness

Drowsing to expectations
Drowsing to daybreak
Drowsing - nightmares
Drowsing to brain death

White elephant troops
Uno solo amigos
Like memories of yesterday
Happy days are gone
Mistakes and limbo
Slumber covers despair
And dreams veil the rest
And dreams veil the rest

Drowsing to oblivion
Drowsing - nightmares
Drowsing to bad dreams
Drowsing to hope

A glance of eternity
In the arms of the Morpheus
White pain, rude awaking
So confused are eyes
When soul travels in between worlds

Drowsing to expectations
Drowsing to oblivion
Drowsing to daybreak
Drowsing to hope
Drowsing to expectations
Drowsing - nightmares
Drowsing to death
Drowsing to hope

A FRANK GAME

If you feel it you can try
When you sleep it's like you die
Why don't come closer and see
That the true love is all you need

Under the cold fire of moon
I always recall your sighs
Skin so silky and nose full of your smell
Bite of you - melting on my tongue
And I hear you say:
"Open your heart to me and I'll be your slave"

Fly on wings of dark black night
Veins pump emotions
An ancient archetype
Dream is a cosy grave
Buried alive by the true love
And I hear you say
"Open your heart to me and I'll be your slave"

Under the cold fire of moon
I always recall your sighs
Skin so silky and nose full of your smell
Bite of you - melting on my tongue
And I hear you say:
"Open your heart to me and I'll be your slave"

Under the cold fire of moon
I always recall your sighs
Skin so silky and nose full of your smell
Bite of you - melting on my tongue
And I hear you say:
"Open your heart to me and I'll be your slave"

BARRIER OF STUPIDITY

Colossal structure is bigger and bigger
Substantially nourished by followers
Flood of fiddleshits, cesspool of gutter press
Grab-race for sensations
Lives are dependent on our business
Purchase us, endorse us!
Your life's admission by invitation
Believe in us!

I am one of you
That stands in long queue
Waiting for next chance
To destroy this fence

Why speculate upon intrinsical themes
When you have guide-post right ahead
Colossal structure is bigger and bigger
And you are one of many constructors

I am one of you
That stands in long queue
Waiting for next chance
To destroy this fence

I am one of many
That sees through the wall
Waiting for next chance
Tear off human trance

VIDEOART

Live a life in a blink of an eye
Praise the god, praise the lord

Lanterns set on fire,
Shattered bones of fallen domes
Fearful masks to wear
Bloodshed hope, despair

Live a life in a blink of an eye
Praise the god, praise the lord

And suddenly - a heart to crash
Entrusted to greedy hands of the Candles' King
Heavy clouds from jungle
Brought by the southern wind
Raindrops of lead fill up your palms
So empty are your arms

Praise the god, praise the lord
There comes the Candles' King
And the shattered heart,
So lonely heart, light dies away...

While moments,
Those genuine moments
Are not passing
Are not passing

And suddenly - a heart to crash
Entrusted to greedy hands of the Candles' King
Heavy clouds from jungle
Brought by the southern wind
Raindrops of lead fill up your palms
So empty are your arms

SAD MEN'S THEATRE

The walls build from apathetic lives
The windows looking into emptiness
The doors without handles
The curtain made of heartless tears

Playing plays without happy end
Welcome to that bizarre place
To the theatre of despair

Do you feel frustrated?
Welcome to that bizarre place!
Welcome to the theatre of sad men!

The last degrees of existence
No free will, you're just puppet
Who have better to forget its name?
Your live is vicious farce, directed by someone else

Do you feel frustrated?
Welcome to that bizarre place!
Welcome to the theatre of sad men!

So strange are days and nights
In the theatre of despair

So, once you are here,
Forget your name and let your soul die!

Do you feel frustrated?
Welcome to that bizarre place!

STORY ABOUT...

Cry with me today, tomorrow
Cry with me if you want to know
I am remainder of your funny episode
I am remainder of your heavy load
If you want to fly and whirl up the air
Simple, you must be similar to me

I wish I had your soul
Your idea was mine
You must feel better now
Without your own notion

Fly with me today, tomorrow
Fly with me if you want to know
I am remainder of your funny episode
I am remainder of your heavy load
I am your cleary rain
Falling down on face
Only I break the storm,
Only I stop the space

I wish I had your soul
Your idea was mine
You must feel better now
Without your own notion

I wish I had your soul
Your idea was mine
You must feel better now
Without your own notion

THE DOOR TO RECONCILIATION

Standing on the hill, on top of power
The world is in reach of your hands
There is nothing you couldn't make
By your strong, muscular hands
You would become the only one
A great saviour of the dreadful world
You hold cross upside down
It is a joke? Yeah, that's right

What shall I do?
Awake or asleep?
What shall I do?
Live or just weep?
Forever sleep
Eternally weep

Falling from the top
Through all recollections
Strange kind of death
Suddenly you're so weak
All friends passed away
To heaven, to hell
No Friendly soul
Just impervious cell

What shall I do?
Awake or asleep?
What shall I do?
Live or just weep?
Forever sleep
Eternally weep

You should be glad
And you should be proud
Alive again
In door to better life

What shall I do?
Awake or asleep?
What shall I do?
Live or just weep?
No more sleep!!!
No more weep!!!

Climb up again though no wings to help
Just the hope, this is the second chance
Body still exhausted
But you've found new life zest

CHROMOZOMY

Hej brácho zadrž dech
V proudu zatuchlých činů
Přestaň jen tak stát, nasad' běh
Znovu rád s tebou splynu
Nepodléhej, neuvadej, rozkopni bránu
Ambicí tvých, polomrtvých
Vejdí, neváhej

Dej mi znát co cítíš
V labyrintu zmijí
Porážkou tě nedám vzít
Já jsem tvá část bytí
Ty jsi ryzí kus mého já
Porážkou tě nedám vzít

Překonáme řeku strastí
Co tvé tělo sráží
Do křehké plochy ledu
Hroty horké vrážím
Táhnu s tebou proti tobě
Hledat nové obzory
Ty proti mě, beze studu
Chromozomům navzdory

Dej mi znát co cítíš
V labyrintu zmijí
Porážkou tě nedám vzít
Já jsem tvá část bytí
Ty jsi ryzí kus mého já
Porážkou tě nedám vzít

Hej brácho, prosím, zadrž dech!
Přeskočíme a druhý břeh

Dej mi znát co cítíš
V labyrintu zmijí
Porážkou tě nedám vzít
Já jsem tvá část bytí
Ty jsi ryzí kus mého já
Porážkou tě nedám vzít

Dej mi znát co cítíš
V labyrintu zmijí
Porážkou tě nedám vzít
Já jsem tvá část bytí
Ty jsi ryzí kus mého já
Porážkou tě nedám vzít
